1. Contact Details	1
2. Module and Course Description.....	1
3. Learning Outcomes	1
4. Concepts and Policies.....	2
5. End-of-module Exam (MAP).....	3
6. Course Programme	4

1. Contact Details

For general communication and questions concerning the end-of-module exam please contact mapbm2-es1@uni-koeln.de. Please make sure that your email contains your full name, your matriculation number and the specific course you are taking (e.g. Practical Phonetics and Phonology, group 01, Wednesday 10 a.m., Dr. Abel). If you want to contact your teacher directly, email them at their individual address or sign up for their office hours.

2. Module and Course Description

BM2 consists of three elements:

- 1) the course “Grammar: Description, Analysis and Practice” (GR),
- 2) the course “Practical Phonetics and Phonology” (PP) and
- 3) the end-of-module exam (“Modulabschlussprüfung”, MAP).

After you have successfully completed all three elements, you will receive 6 Credit Points (CP), which amounts to 180 hours of preparation, class participation, revision and exam preparation.

GR offers an introduction to English grammar. We will describe and analyse the structure and underlying rules of the English language. Basic concepts and terminology in syntax and morphology are explained and illustrated. First, we will introduce the concepts of categories and functions and will define, describe and analyse words, phrases and clauses. Then, we will turn to English verbs and their classification before investigating nouns and noun phrases. Finally, we will examine different clause types in English.

PP offers a general as well as a language-specific introduction to phonetics and phonology. We will start by analysing the organs of speech and the articulation of speech sounds. We will survey various phenomena that characterise the sound structure and pronunciation of English, e.g. allophonic and allomorphic variation, syllable structure, phonotactic constraints and features of connected speech. We will discuss differences between British and American English with respect to pronunciation and analyse interference effects on pronunciation from German native speakers. The course will also provide practical training in phonemic transcription.

The MAP covers the contents of both GR and PP and is a digital exam that takes place at university. You will have to answer computerised questions and do a handwritten phonemic transcription. You have to register for the exam on KLIPS. For details see below.

3. Learning Outcomes

By the end of the GR course, students ...

- are familiar with basic linguistic concepts in the area of syntax and morphology.
- identify important phenomena of English grammar.
- describe these grammatical phenomena using the terminology of a specific theoretical framework.
- analyse and formulate rules for these grammatical phenomena.
- distinguish between categories and functions.
- differentiate and categorise types of words, phrases and clauses.

- distinguish between different verb forms and subcategories of verbs.
- analyse the structure of noun phrases.
- name and analyse different types of English clauses.
- use English more confidently.
- have improved their own English grammar skills.

By the end of the PP course, students ...

- have practical skills in phonemic transcription (Standard British/American English).
- recognise and use the symbols that represent the sounds of English (IPA).
- describe and categorise consonant and vowel sounds in a linguistically precise manner.
- are familiar with the systematic and idiosyncratic principles and rules of English pronunciation.
- analyse restrictions and variations of the English language.
- identify and explain phonological phenomena such as allophones, allomorphs, stress and syllable structure.
- understand interference effects of German on (their own) English pronunciation.
- increase their phonological and general language awareness.
- enhance their own use and pronunciation of English.

By the end of both courses, students ...

- describe English linguistic data in a scientific way.
- analyse the English language with the help of theoretical tools.
- apply their knowledge to their own everyday usage of the English language.
- pass the end-of-module exam.

4. Concepts and Policies

Assignments and Attendance: In order to receive credit for the classes, you have to be registered on KLIPS and must submit the mandatory assignments as indicated in the table below.

Mandatory Assignment		Description	Deadline
I	Grammar: online exercises chapter 2	Go to the online exercise & mock exam server (cf. below) and complete both online exercises that relate to chapter 2 in the Grammar and PP class.	28.04.2023, 23:55
	PP: online exercises chapter 2		
II	Grammar: Mandatory Assignment II test	Go to the online exercise & mock exam server (cf. below) and take both tests in the folder “Mandatory Assignment II” until you have achieved at least 60% in both of them.	09.06.2023, 23:55
	PP: Mandatory Assignment II test		

If you do not complete the two mandatory assignments, you will be removed from the Grammar and Phonetics and Phonology class on KLIPS and will no longer have access to the materials on ILIAS. If you are retaking the classes, download all material before the first deadline or simply complete the exercises for practice.

To be best prepared for the MAP, attend the courses regularly, come to class well-prepared and participate actively. Additionally, use the different types of exercises (in-class, self-study and online exercises, see below).

Script: GR and PP are each accompanied by a script. Both documents as well as all other material are provided on ILIAS. Read the relevant chapter of the script indicated in your course programme BEFORE the session. The study questions given at the beginning of each chapter guide your reading process and highlight the most important aspects.

Self-study Exercises: Both the GR and the PP script contain “self-study exercises” in order to consolidate your knowledge. In GR, the self-study exercises are an integral part of each chapter and it is imperative that you therefore work on the self-study exercises BEFORE the session. In PP, the self-study exercises are given at the end of the script. You can work on them after having read the chapter(s). Model solutions to the self-study exercises are provided in the scripts.

In-class Exercises: During our sessions we will talk about the study questions and/or clarify your questions. The remaining class time will be spent working on the in-class exercises together. Model solutions to the in-class exercises are provided on ILIAS.

Online Exercises: We provide you with plenty of online exercises. Use them to review the content of our classes and test your learning progress (after each chapter, complete the corresponding online exercises).

Mock exams: Practise for the exam with the help of the mock exams (“Probeklausuren”). The mock exams are a reflection of what is expected in the MAP. The type of questions that you find in the online exercises and in the mock exams will be used in the final exam. The correct answers to the online exercises and mock exams are provided by ILIAS. A link to these exercises can be found in the ILIAS folders. Simply click on it and log in with your ILIAS name and password.

Transcription: A central part of the PP course is to develop your skills in phonemic transcription. Beginning in the fifth week of the course, you should upload one transcription each week until Friday, at 12 noon. This is the best preparation for the transcription part of the exam. Transcription 5 is mandatory (part of assignment II). Please proceed as follows:

- 1) Prepare a handwritten phonemic transcription (use the pages provided in chapter 11 of the script).
- 2) Scan your transcription with the help of a scanner or a scanner app for mobile phones.
- 3) Upload your transcription as one pdf (!) file onto ILIAS.

After submission, you will have access to a model transcription. Please compare the model transcription with your version and make the necessary corrections yourself. The PP teachers will choose one submitted transcription each week and correct it. This anonymised model correction will be made available on ILIAS to all students and you can gain valuable insights from studying it. If you do not want your transcription to be chosen for this model correction, please indicate this on your transcription.

5. End-of-module Exam (MAP)

In the summer semester 2023, the BM2 end-of-module exam will be taken at university as a digital exam. Each term there are two dates to take the exam. You have to register on KLIPS for the MAP and without registration you cannot take the exam. This semester the MAP takes place on:

- I. **19.07.2023, 12:00 noon** → KLIPS registration period: 26.04.23 - 07.06.23
- II. **27.09.2023, 12:00 noon** → KLIPS registration period: 05.07.23 - 13.09.23

We strongly recommend you take the exam on the first date and use the second date if you fail the first attempt. In this case, you can only register on KLIPS after the results of the first exam have been published. Usually, this takes 3 to 4 weeks. There is no limit to the number of times you may take the exam until you pass (“keine Versuchsrestriktionen”), but failed attempts (grade 5.0) will show on your transcript of records. Once you have passed the MAP with a grade of 4.0 or better, you cannot retake it. The grade counts towards 1% of your overall grade in English. The exam slot covers 2 hours: 90 minutes for completing the exam plus circa 30 minutes for administrative purposes. The number of points you

Bachelor *English Studies*, Bachelor *Unterrichtsfach Englisch*
Basic Module (BM) 2 „Sprachpraxis – Beschreibung und Analyse“, mapbm2-es1@uni-koeln.de
BM2 Team: Dr. Beate Abel, Dr. Astrid Gramatke, Dr. Monika Klages, Dr. Katja Lenz

can obtain in the exam is 80 (40 GR, 20 PP content and 20 PP transcription). You need at least 60% (48 points) to pass the exam.

The exam takes place in S 89, S 91 and S93 in the Philosophikum (building 103). Please gather at the glass door that leads to these rooms 15 minutes in advance at the latest. We will assign you to one of the computer rooms. Leave your jackets and bags in the front, switch off your mobile phones and smartwatches and store them in your bag. Only take a pen and your student ID to your seat. Without a valid picture ID, you are not allowed to take the exam. Please make sure that you know your ILIAS name and your ILIAS password, otherwise, you will not be able to sit the exam. After the exam has started, you are not allowed to leave the room unless you have to go to the restroom. If you do not need the allotted 90 minutes, please remain quietly in your seat until everyone is finished. If you are ill on the day of the exam, please get a doctor's note and submit this together with the form "Außerordentliche Abmeldung von Modulprüfungen" to Dr. Astrid Gramatke.

In the third week of teaching, we will talk about "MAP details" in our PP classes (not in GR), so please attend this session. Information on the exam can also be found here: <https://anglistik1.phil-fak.uni-koeln.de/index.php?id=27605>. If you are eligible for academic accommodations ("Nachteilsausgleich"), please let us know as soon as possible and follow the instructions indicated here: "Vorgehen bei Modulprüfungen mit Nachteilsausgleich" <https://anglistik1.phil-fak.uni-koeln.de/studium-pruefungen/modulpruefungen>.

6. Course Programme

Please go to the ILIAS group that accompanies your specific GR and PP course and access the course programme in question.
